Final Exam will be Tuesday April 29th, during the usual class time.
The exam is cumulative, and covers material in chapters of your textbook as mentioned in the course syllabus. The topics most likely to be asked about are those mentioned in class or assignments.
For preparation, look at the homework problems. Also, look at the problems in the textbook, at the end of the chapters.
You can bring into the exam three sheets of 8.5x11 paper, with whatever you want written on them. (You can write on both sides of the sheet.) Your name must be written on top of each sheet.
