1. Do exercise 2.5a from Graham

2. Do exercise 2.6a and 2.6b from Graham. Explain.
   a)
   b)

3. Do exercise 2.8a from Graham.
4. Write a Lisp function that given the lengths of the sides of a right triangle, computes the squares of the sides, the total, and the hypotenuse, and prints all the values. Do not compute a value twice (use let to store the values).
